* Zillow Group has not provided a quantitative reconciliation of forecasted Adjusted EBITDA to forecasted GAAP net loss for total Adjusted EBITDA or to forecasted GAAP loss before income taxes for segment Adjusted EBITDA within this earnings release because the company is unable, without making unreasonable efforts, to calculate certain reconciling items with confidence. These items include, but are not limited to: income taxes which are directly impacted by unpredictable fluctuations in the market price of the company's capital stock; depreciation and amortization expense from new acquisitions; impairments of assets; and acquisition-related costs. These items, which could materially affect the computation of forward-looking GAAP net loss and loss before income taxes, are inherently uncertain and depend on various factors, many of which are outside of Zillow Group's control. For more information regarding the non-GAAP financial measure discussed in this release, please see "Use of Non-GAAP Financial Measure" below.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that involve risks and uncertainties, including, without limitation, statements regarding the proposed acquisition of Mortgage Lenders of America, L.L.C., our business outlook, and operational plans for 2018. Statements containing words such as “may,” “believe,” “anticipate,” “expect,” “intend,” “plan,” “project,” “will,” “projections,” “continue,” “business outlook,” “forecast,” “estimate,” “outlook,” “guidance,” or similar expressions constitute forward-looking statements. Differences in Zillow Group’s actual results from those described in these forward-looking statements may result from actions taken by Zillow Group as well as from risks and uncertainties beyond Zillow Group’s control. Factors that may contribute to such differences include, but are not limited to, the satisfaction of conditions precedent to the closing of Zillow Group’s acquisition of Mortgage Lenders of America, L.L.C., Zillow Group’s ability to maintain and effectively manage an adequate rate of growth; Zillow Group’s ability to innovate and provide products and services that are attractive to its users and advertisers; Zillow Group’s ability to compete successfully against existing or future competitors; Zillow Group’s investment of resources to pursue strategies that may not prove effective; the impact of the real estate industry on Zillow Group’s business; the impact of pending litigation and other legal and regulatory matters; Zillow Group’s ability to increase awareness of the Zillow Group brands in a cost-effective manner; Zillow Group’s ability to attract consumers to Zillow Group’s mobile applications and websites; Zillow Group’s ability to successfully integrate and realize the benefits of our past or future strategic acquisitions or investments; the reliable performance of Zillow Group’s network infrastructure and content delivery processes; and Zillow Group’s ability to protect its intellectual property. Use of Non-GAAP Financial Measure

To provide investors with additional information regarding our financial results, this press release includes references to Adjusted EBITDA, including forecasted Adjusted EBITDA, which is a non-GAAP financial measure. We have provided a reconciliation of Adjusted EBITDA to the most directly comparable GAAP financial measure, which is net loss on a consolidated basis and loss before income taxes for each segment, within this earnings release.

Adjusted EBITDA is a key metric used by our management and board of directors to measure operating performance and trends, and to prepare and approve our annual budget. The exclusion of certain expenses in calculating Adjusted EBITDA facilitates operating performance comparisons on a period-to-period basis.

Our use of Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not consider the potentially dilutive impact of share-based compensation;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements;
- Adjusted EBITDA does not reflect acquisition-related costs;
- Adjusted EBITDA does not reflect interest expense or other income;
- Adjusted EBITDA does not reflect income taxes; and
- Other companies, including companies in our own industry, may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, you should consider Adjusted EBITDA alongside other financial performance measures, including various cash flow metrics, net loss and loss before income taxes and our other GAAP results. You should not consider Adjusted EBITDA in isolation or as a substitute for analysis of our results as reported under GAAP.

Non-GAAP Net Income per Share

Our presentation of non-GAAP net income per share excludes the impact of share-based compensation expense, acquisition-related costs and income taxes. This measure is not a key metric used by our management and board of directors to measure operating performance or otherwise manage the business. However, we provide non-GAAP net income per share as supplemental information to investors, as we believe the exclusion of share-based compensation expense, acquisition-related costs and income taxes facilitates investors' operating performance comparisons on a period-to-period basis. You should not consider non-GAAP net income per share in isolation or as a substitute for analysis of our results as reported under GAAP.

The following table sets forth a reconciliation of net income, adjusted, to net loss, as reported on a GAAP basis, and the calculation of non-GAAP net income per share - basic and diluted, for each of the periods presented (in thousands, except per share data, unaudited):
